General Information: Wood components are manufactured with cedar (*Cunninghamia Lanceolata*) and are protected with a factory applied water-based stain. Knots, small checks or cracks, and weathering are naturally occurring and do not affect the strength of the product. Annual application of a water-based, water-repellant sealant or stain helps reduce weathering and checks.

Warranty: Yardistry Limited products are backed by a 5-year limited warranty from the date of original retail purchase for manufacturing defects and if installed as per manufacturer's installation instructions. For more information, visit www.yardistrystructures.com.
