Revised 08-13-2020

Patents Pending
Important Safety Notice!

Yardistry components are intended for privacy, decorative and ornamental use only.

**Product is NOT INTENDED for the following:**
- A safety barrier to prevent unsupervised access to pools, hot tubs, spas or ponds.
- As load bearing support for a building, structure, heavy objects or swings.
- Used in structures that trap wind, rain or snow that would create extra load on the product.

**Accumulated snow must be removed from roof.**

**DO NOT** climb or walk on roof for any reason.

**Permanent structures may require a building permit.** As the purchaser and or installer of this product you are advised to consult local planning, zoning and building inspection departments for guidance on applicable building codes and/or zoning requirements.

**Wood is NOT flame retardant and will burn.** Grills, fire pits and chimineas are a fire hazard if placed too close to a Yardistry structure. Consult user’s manual of the grill, fire pit or chiminea for safe distances from combustible materials.

**Wear gloves to avoid injury** from possible sharp edges of individual elements before assembly.

**During installation, follow all safety warnings provided with your tools and use OSHA approved safety glasses.** Some structures may require two or more people to install safely.

**Check for underground utilities before digging or driving stakes into the ground!**

**During assembly it is important to closely follow the instructions.** Complete the assembly on a solid, level surface and follow the instructions to square up, level and anchor the structure. This will reduce the gaps at wood connections during assembly.

---

**General Information**

**General Information:** Wood components are manufactured with Cedar (C. Lanceolata) which is protected with factory applied water-based stain. Knots, small checks (cracks) and weathering are naturally occurring and do not affect the strength of the product. Annual application of a water-based water repellent sealant or stain is important and will help reduce weathering and checks.

**Limited Warranty**

Yardistry warrants that this product is free from defect in materials and workmanship for a period of one (1) year from the original date of purchase. In addition, for any product with lumber, all lumber is warranted for five (5) years against rot and decay. This warranty applies to the original owner and registrant and is non-transferable.

Regular maintenance is required to assure the integrity of your product and is a requirement of the warranty. This warranty does not cover any inspection costs.

**This Limited Warranty does not cover:**
- Labour for replacement of any defective item(s);
- Incidental or consequential damages;
- Cosmetic defects which do not affect performance or integrity;
- Vandalism; improper use or installation; acts of nature, including but not limited to wind, storms, hail, floods, excessive water exposure;
- Minor twisting, warping, checking or any other natural occurring properties of wood that do not affect performance or integrity.

Yardistry products have been designed for safety and quality. Any modifications made to the original product could damage the structural integrity of the product leading to failure and possible injury. Yardistry cannot assume any responsibility for modified products. Furthermore, modification voids any and all warranties.

**This product is warranted for RESIDENTIAL USE ONLY.** Yardistry disclaims all other representations and warranties of any kind, express or implied.

*This Warranty gives you specific legal rights. You may have other rights as well which vary from state to state or province to province. This warranty excludes all consequential damages, however, some states/provinces do not allow the limitation or exclusion of consequential damages, and therefore this limitation may not apply to you.*
Instructions for Proper Maintenance

Your Yardistry structure is designed and constructed of quality materials. As with all outdoor products it will weather and wear. To maximize the enjoyment, safety and life of your structure it is important that you, the owner, properly maintain it.

HARDWARE:
• Check metal parts for rust. If found, sand and repaint using a non-lead paint complying with 16 CFR 1303.
• Inspect and tighten all hardware after completion of assembly; after first month of use; and then annually. Do not over-tighten as to cause crushing and splintering of wood.
• Check for sharp edges or protruding screw threads, add washers if required.

WOOD PARTS:
• Applying a water repellent or stain (water-based) on a yearly basis is important maintenance to maintain maximum life and performance of the product.
• Check all wood members for deterioration, structural damage and splintering. Sand down splinters and replace deteriorated wood members. As with all wood, some checking and small cracks in grain is normal.
• Some gapping may occur at some wood connections.

Assembly Guides

Tools Required:
• Tape Measure
• Carpenters Level
• Standard or Cordless Drill
• Claw Hammer
• 7/16” & 9/16” Wrench
• 8’ Step Ladder x 2
• Safety Glasses
• Adult Helper
• Safety Gloves
• Hard Hat
• 6’ Step Ladder x 2
• Square
• Rachet
• 7/16, 1/2 & 9/16 Socket

Symbols:
Throughout these instructions symbols are provided in the top, right-hand corner of the page.

• Use Help, where this is shown, 2, 3 or 4 people are required to safely complete this step. To avoid injury or damage to the assembly make sure to get some help.

• Use a measuring tape to assure proper location

• Pre-drill a pilot hole before fastening screw or lag to prevent splitting of wood.

If you dispose of your Yardistry structure: Please disassemble and dispose of your unit so that it does not create any unreasonable hazards at the time it is discarded. Be sure to follow your local waste ordinances.
Assembly Tips

Following are some helpful tips to make the assembly process smooth and efficient.

PRE-ASSEMBLIES:
(i.e. Post and Beam Assemblies, Roof Rafter Assembly, etc)
• Work on a raised, solid and flat surface such as, a table or saw horse.
• Keep all connections flush where shown in the instructions.
• When assembling the beams keep parts flat, straight and snug when connecting.

METAL PARTS:
• Roofing material may have sharp edges, wear safety gloves.
• Remove all plastic covering, on both sides of the metal panels, directly before installing each piece.
• Place roofing material on a non-abrasive surface before and after assembly as it can bend, dent and scratch easily.
• The roofing screws can easily crush the roof panels and roof edges when using a power drill. We recommend hand tightening the roofing screws so they sit snug and tight to the roofing material.
Permanent Installation Examples

Note: It is critically important you start with square, solid and level footings, concrete pad or deck to attach your Pergola Room.

We supply Post Mounts with this structure which gives you the flexibility to permanently install your structure to a pre-existing or new wood or concrete surface.
- The hardware to attach the Post Mount to the structure is included.
- The hardware to mount the structure permanently will need to be purchased separately at your local hardware store.

If you are mounting to concrete footers see below for the correct locations and placement. Please double check for possibility of any underground utilities such as gas, telephone, cable or sprinkler lines.

Following are some examples of how to mount the structure to wood or concrete surfaces.

Refer to your local building and city codes, ordinances, neighbourhood covenants, or height restrictions regarding this type of structure for guidance on acceptable installation requirements.
Permanent Installation Examples cont.

Concrete Patio [min. 3.616 m x 6.1 m (11’ 10-3/8” x 20’ 7/8”) with 15.24 cm (6”) clearance on all sides]

Wood Deck [min. 3.616 m x 6.1 m (11’ 10-3/8” x 20’ 7/8”) with 15.24 cm (6”) clearance on all sides]

Post Mounts have a 12.7 mm (1/2”) diameter hole for anchoring hardware.

Dimensions are approximate and are shown to assist in the identification of parts for assembly. Actual dimensions may be smaller or larger.
Step 1: Inventory Parts - Read This Before Starting Assembly

A. This is the time for you to inventory all your hardware, wood and accessories, referencing the parts identification sheets. This will assist you with your assembly.
   - Each step indicates which bolts and/or screws you will need for assembly, as well as any flat washers, lock washers, t-nuts or lock nuts.

B. If there are any missing or damaged pieces or you need assistance with assembly please contact the consumer relations department directly. Call us before going back to the store.
   
   1-888-509-4382
   support@yardistrystructures.com

C. Read the assembly manual completely, paying special attention to ANSI warnings; notes; and safety/maintenance information on pages 1 - 4.
   - Follow the instructions in order.
   - This structure is designed to be assembled and installed ideally by four people, DO NOT attempt to install alone.
   - Consider the slope of elevation where you plan to install the structure. Also, check for gas, telephone, other utilities or sprinkler line locations prior to excavating any holes.

D. Before you discard your cartons fill out the form below.
   - The carton I.D. stamp is located on the end of each carton.
   - Please retain this information for future reference. You will need this information if you contact the Consumer Relations Department.

   **PRODUCT NUMBER: YM12952**

   CARTON I.D. STAMP: __ __ __ __ __ __ (Box 1)
   CARTON I.D. STAMP: __ __ __ __ __ __ (Box 2)
   CARTON I.D. STAMP: __ __ __ __ __ __ (Box 3)
Step 2: Post Assemblies
Part 1 - Main Posts

A: At the bottom of one (1006) 6 x 9 Post insert two 5/16" T-Nuts on the outside of each long side. (F2.2)

B: At the bottom of the same (1006) 6 x 9 Post place two 6 x 9 Post Mounts tight to the bottom and inside faces on the long sides as shown in F2.1 and F2.2. Loosely attach with two 5/16 x 1-1/4" Hex Bolt (with 5/16" lock washer and 1/4-5/16" large washer) per mount so they connect to the T-Nuts. From the bottom attach with two #8 x 1-1/2" Wood Screws and two #10 x 1-1/4" Pan Screws per mount. Tighten bolts.

C: Flush to the bottom of (1006) 6 x 9 Post place one (460) Plinth Long on each long side and one (459) Plinth on each short side and attach with four #8 x 1-1/2" Wood Screws per plinth. Rounded edges on top. (F2.1, F2.2 and F2.3)

D: Repeat Steps A - C three more times to make four Main Post Assemblies.

---

**Wood Parts**

- 4 x (1006) 6 x 9 Post
- 8 x (459) Plinth
- 8 x (460) Plinth Long

**Hardware**

- 80 x #8 x 1-1/2" Wood Screw
- 16 x #10 x 1-1/4" Pan Screw
- 16 x 5/16" 1-1/4" Hex Bolt (with 5/16" lock washer, 1/4- 5/16" large washer)
- 16 x 5/16" T-Nut
- 8 x 6x9 Post Mount

---

support@yardistrystructures.com
Step 2: Post Assemblies
Part 2 - Mid Posts

E: At the bottom of one (696) 6 x 6 Post insert one 5/16” T-Nut on the outside of two sides, as shown in F2.6.

F: At the bottom of the same (696) 6 x 6 Post place two Post Mounts tight to the bottom and inside faces on the sides as shown in F2.4 and F2.5. Loosely attach with one 5/16 x 1-1/4” Hex Bolt (with 5/16” lock washer and 1/4-5/16” large washer) per mount so they connect to the T-Nuts. From the bottom attach with two #8 x 1-1/2” Wood Screws and two #10 x 1-1/4” Pan Screws per mount. Tighten bolts.

G: Flush to the bottom of (696) 6 x 6 Post place one (459) Plinth on each side, attach with four #8 x 1-1/2” Wood Screws per plinth. Rounded edges on top. (F2.4, F2.5 and F2.6)

H: Repeat Steps E - G one more time to make two Mid Post Assemblies.

<table>

</tr>
</tbody>
</table>
Step 3: Short Beam Assembly
Part 1

A: Connect one (1002) Beam Short Left and one (1003) Beam Short Right using two 5/16 x 1-1/2" Hex Bolts (with 5/16" lock washer, 1/4-5/16" large washer and 5/16" t-nut) as shown in F3.1 and F3.2.

B: Connect one (1004) Beam Short End to each end of one (1005) Beam Short Centre using two 5/16 x 1-1/2" Hex Bolts (with 5/16" lock washer, 1/4-5/16" large washer and 5/16" t-nut) per end as shown in F3.1 and F3.2.

C: Repeat Steps A and B one more time to make two Short Beam L-R Assemblies and two Short Beam End Assemblies.

Make sure bolt heads are on the outside of each Beam Assembly

<table>
<thead>
<tr>
<th>Wood Parts</th>

<td></td>
</tr>
<tr>
<td>2 x (1003) Beam Short Right</td>
<td></td>
</tr>
</tbody>
</table>
Step 3: Short Beam Assembly
Part 2

D: Place one Short Beam L-R Assembly tight to one Short Beam End Assembly so the ends are flush. Match the bolt holes in each (1004) Beam Short End with the bolt holes in (1002) Beam Short Left and (1003) Beam Short Right. Attach with 18 #8 x 2-1/2" Wood Screws. (F3.3 and F3.4)

E: Repeat Step D one more time to make two Short Beam Assemblies.

Hint: Use bolts at both ends to line up bolt holes. Remove bolts once step is complete

Hardware
36 x #8 x 2-1/2" Wood Screw
Step 4: Long Beam Assembly

Part 1

A: Connect one (694) Outer End to each end of one (693) Outer Beam Centre using four 5/16 x 1-1/2" Hex Bolts (with 5/16" lock washer, 1/4-5/16" large washer and 5/16" t-nut) as shown in F4.1 and F4.2. Notice orientation of angled ends.

B: Connect one (692) Beam Long End to each end of one (691) Beam Long Inside using four 5/16 x 1-1/2" Hex Bolts (with 5/16" lock washer, 1/4-5/16" large washer and 5/16" t-nut) as shown in F4.3 and F4.4. Notice orientation of angled ends.

C: Repeat Steps A and B to make two Outer Beam Assemblies and two Inside Beam Assemblies.

---

**Wood Parts**

- 2 x (691) Beam Long Inside
- 4 x (692) Beam Long End
- 2 x (693) Outer Beam Centre
- 4 x (694) Outer End

**Hardware**

- 16 x 5/16 x 1-1/2" Hex Bolt
- (5/16" lock washer, 1/4-5/16" large washer, 5/16" t-nut)
Step 4: Long Beam Assembly
Part 2

D: Place one Outer Beam Assembly and one Inside Beam Assembly together so the beam assembly ends are flush and the angled ends match. Bolt heads must be on the outside of both beam assemblies. Match the bolt holes in (691) Beam Long Inside and each (692) Beam Long End with the bolt holes in each (694) Outer End then attach with 24 #8 x 2-1/2" Wood Screws. (F4.5 and F4.6)

E: Repeat Step D to make a second Long Beam Assembly.

F4.5

Hint: Use bolts at both ends to line up bolt holes. Remove bolts once step is complete

F4.6

Hardware

48 x #8 x 2-1/2" Wood Screw
Step 5: Frame Assembly and Anchoring
Part 1

A: On a hard, flat surface place one Short Beam Assembly against the outside of two Main Posts, flush to the tops and outside corners. Notice the short side of the Main Post Assembly is along the Short Beam Assembly and hole on long side of the post is closer to the beam. Attach Beam to Post, through the bottom hole, with one 3/8 x 12-1/4" Hex Bolt (with two 3/8" large washers and one 3/8" lock nut) per Main Post. (F5.1 and F5.2)

The distance from the outside of one Main Post to the outside of the second Main Post should be 10'10-3/8". See F5.3 for accurate positioning of Posts.

B: Repeat for second Short Beam Assembly on remaining two Main Posts. These will now be referred to as Short Side Assemblies. (F5.1 and F5.2)

---

Hardware
4 x 3/8 x 12-1/4" Hex Bolt (3/8" large washer x 2, 3/8" lock nut)
Step 5: Frame Assembly and Anchoring
Part 2

Note: The bevelled ends on each gusset should always face away from the wood it is attaching to.

C: Make sure each Short Side assembly is square with the Main Post then facing one Short Beam Assembly from the outside place one (705) Gusset RT on the right hand side so the top fits tight to the Beam Assembly and the bottom fits tight to the Main Post. Attach gusset to Beam Assembly with two 5/16 x 3-1/2” Hex Bolts (with 5/16” lock washer, 1/4-5/16” large washer and 5/16” t-nut). Pre-drill with a 1/8” drill bit then attach gusset to Main Post, with three 1/4 x 1-15/16” Lag Screws (with 1/4-5/16” large washer). (F5.4 and F5.5)

D: Repeat Step C on the left hand side with one (706) Gusset LT. (F5.4 and F5.5)

E: Repeat Steps C and D for second Short Side Assembly. (F5.4 and F5.5)

---

Wood Parts
2 x (705) Gusset RT
2 x (706) Gusset LT

Hardware
12 x 1/4 x 1-15/16” Lag Screw (1/4-5/16” large washer)
8 x 5/16 x 3-1/2” Hex Bolt
(5/16” lock washer, 1/4-5/16” large washer, 5/16” t-nut)
Step 5: Frame Assembly and Anchoring
Part 3

F: Move your Post Assemblies to the final location. Make sure the ground is flat and level before continuing assembly.

G: With helpers stand up Post Assemblies then place one Long Beam Assembly against the outside of two Main Posts, flush to the tops and outside corners and tight to Short Beam Assembly. Attach Long Beam Assembly to Main Post through the top hole with one 3/8 x 9-1/4” Hex Bolt (with two 3/8” large washers and one 3/8” lock nut) per Post. Repeat for the second Long Beam Assembly on the opposite side. (F5.6, F5.7 and F5.8)

Hardware
4 x 3/8 x 9-1/4” Hex Bolt (3/8” large washer x 2, 3/8” lock nut)
Step 5: Frame Assembly and Anchoring
Part 4

H: From inside the assembly, centre one Mid Post over middle bolt holes in each Long Beam Assembly then place Steel Cable with Bracket against both Mid Posts so the angle of the bracket faces up and is over the top bolt hole. Attach Long Beam Assembly to Mid Post and Steel Cable with Bracket through the top hole with one 3/8 x 9-1/4" Hex Bolt (with two 3/8" large washers and one 3/8" lock nut). (F5.9 and F5.10)

Hardware

2 x 3/8 x 9-1/4" Hex Bolt (3/8" large washer x 2, 3/8" lock nut)
1 x Steel Cable with Bracket
Note: The bevelled ends on each gusset should always face away from the wood it is attaching to.

I: Make sure the Frame Assembly is square and level then facing one Long Beam Assembly from the outside place one (705) Gusset RT on the right hand side Main Post and one on the left side of the Mid Post so the tops fit tight to the Beam Assembly and the bottom fits tight to the posts. Attach each gusset to Long Beam Assembly with two 5/16 x 3-1/2’ Hex Bolts (with 5/16” lock washer, 1/4-5/16” large washer and 5/16” t-nut) per gusset. Pre-drill with a 1/8” drill bit then attach each gusset to each post with three 1/4 x 1-15/16” Lag Screws (with 1/4-5/16” large washer) per gusset. (F5.11 and F5.12)

J: Repeat Step I to install two (706) Gusset LT, one on the left hand side Main Post and the other on the right side of the Mid Post. (F5.11 and F5.12)

K: Repeat Steps I and J for the second Long Side. (F5.11 and F5.12)

### Wood Parts
- 4 x (705) Gusset RT
- 4 x (706) Gusset LT

### Hardware
- 24 x 1/4 x 1-15/16” Lag Screw (1/4-5/16” large washer)
- 16 x 5/16 x 3-1/2” Hex Bolt (5/16” lock washer, 1/4-5/16” large washer, 5/16” t-nut)
L: Attach Long and Short Beam Assemblies to Main Posts with two 5/16 x 4-3/4” Lag Screws (with 1/4-5/16” large washer) per corner in the remaining holes.  (F5.13)

M: Attach Long Beam Assembly to both Mid Posts through the bottom holes with one 5/16 x 4-3/4” Lag Screw (with 1/4-5/16” large washer) per post.  (F5.14)

N: Depending on what you are placing the Gazebo on will determine how you anchor it to that surface.  Please refer to pages 6 and 7 for installation examples.

*Any hardware or extra materials for mounting will have to be purchased in advance.*

**Hardware**

10 x 5/16 x 4-3/4” Lag Screw (1/4-5/16” large washer)
Step 6: Attach Brackets

**A:** On each Mid Post place one Centre Roof to Beam Bracket, centred to each Long Beam Assembly so they are flush and tight to the inside face of each beam then attach to Mid Posts with two #12 x 1-1/2” Pan Screws per bracket. (F6.1 and F6.2)

---

**Hardware**

- 4 x #12 x 1-1/2” Pan Screw
- 2 x Centre Roof to Beam Bracket
A: Tightly connect one (627) Fascia Left Short and one (628) Fascia Right Short using one 5/16 x 1-1/2" Hex Bolt (with 5/16" lock washer, 1/4-5/16" large washer and 5/16" t-nut) as shown in F7.1 and F7.2. Repeat to make a second Fascia Beam Assembly.

### Wood Parts
- 2 x (627) Fascia Left Short
- 2 x (628) Fascia Right Short

### Hardware
- 2 x 5/16 x 1-1/2" Hex Bolt
  (5/16" lock washer, 1/4-5/16" large washer, 5/16" t-nut)
Step 8: Small Roof Assembly
Part 1

A: On each side of one (634) Rafter place one (624) Rafter Corner Left and one (623) Rafter Corner Right so the tops and edges are flush then attach with two #8 x 2-1/4" Wood Screws per side. (F8.1 and F8.2)

B: Place Fascia Beam Assembly from Step 7 on the bottom of (634) Rafter Corner Left, (623) Rafter Corner Right and (634) Rafter so the sides are flush then attach with one #8 x 2-1/2" Wood Screw at each end and one in the middle. (F8.1, F8.3, F8.4 and F8.5)

C: Repeat Steps A and B to make a second Small Roof Assembly.

Wood Parts
2 x (634) Rafter
2 x (623) Rafter Corner Right
2 x (624) Rafter Corner Left

Hardware
8 x #8 x 2-1/4" Wood Screw
6 x #8 x 2-1/2" Wood Screw
D: Place one (629) Rafter Short RT, one (632) Rafter Centre RT, one (631) Rafter Centre LT and one (630) Rafter Short LT over the pilot holes in the Fascia Beam Assembly so they are flush to the top of the assembly and tight to both (623) Rafter Corner Right and (634) Rafter Corner Left, as shown in F8.6. Attach Fascia Beam Assembly to rafters with one #8 x 2-1/2" Wood Screw per rafter. Repeat for second Small Roof Assembly. (F8.6, F8.7 and F8.8)

---

**Wood Parts**

- 2 x (629) Rafter Short RT
- 2 x (630) Rafter Short LT
- 2 x (631) Rafter Centre LT
- 2 x (632) Rafter Centre RT

**Hardware**

- 8 x #8 x 2-1/2" Wood Screw
Step 8: Small Roof Assembly
Part 3

E: Place one (636) Top Strap, one (637) Mid Strap, one (687) Bottom Strap LT and one (688) Bottom Strap RT in the notches of each rafter so the ends do not overhang the outside edges of the outside boards. (687) Bottom Strap LT and (688) Bottom Strap RT sit tight together. Attach with four #8 x 1-1/2” Wood Screws per strap. Complete for each Small Roof Assembly. (F8.9, F8.10 and F8.11)

---

**Wood Parts**
- 2 x (636) Top Strap
- 2 x (637) Mid Strap
- 2 x (687) Bottom Strap LT
- 2 x (688) Bottom Strap RT

**Hardware**
- 32 x #8 x 1-1/2” Wood Screw
Step 8: Small Roof Assembly
Part 4

F: Attach (629) Rafter Short RT and (632) Rafter Centre RT to (623) Rafter Corner Right and (631) Rafter Centre LT and (630) Rafter Short LT to (624) Rafter Corner Left with two #8 x 1-1/2" Wood Screw per rafter. (F8.11 and F8.12)

G: Attach (636) Top Strap, (637) Mid Strap and (687) Bottom Strap LT to rafters with 16 #8 x 1-1/2" Wood Screws. (F8.13)

H: Complete Steps F and G for both Small Roof Assemblies.

</tr>
</tbody>
</table>
Step 9: Attach Soffits - Small Roof Assembly

A: Turn over each Small Roof Assembly then place two (648) Soffits tight together at centre of (634) Rafter and tight to the top of Fascia Beam Assembly. Attach (648) Soffits to (634) Rafter, (623) Rafter Corner Right, (624) Rafter Corner Left, (629) Rafter Short RT, (630) Rafter Short LT, (632) Rafter Centre RT and (631) Rafter Centre LT with four #8 x 1” Pan Screws per soffit. (F9.1 and F9.2)

INSTALLING ROOFING MATERIAL

CAUTION!
Roofing material may have sharp edges! Wear gloves!

HANDLE WITH CARE!
Place roofing material on a non-abrasive surface before assembly as it can bend, dent and scratch easily.

WARNING – DO NOT OVER TIGHTEN ROOFING SCREWS!
Over tightening screws will cause roofing material to crush.

The roofing screws can easily crush the Roof Panels and Roof Edges when using a power drill. We recommend hand tightening the roofing screws so that they sit snug and tight to the roofing material.
INSTALLING ROOFING MATERIAL

CAUTION!
Roofing material may have sharp edges! Wear gloves!

BE SURE TO REMOVE ALL PLASTIC COVERING, ON BOTH SIDES OF THE ALUMINUM PANELS AND TRIM, DIRECTLY BEFORE INSTALLING EACH PIECE. *(One side is clear and the other is blue, both must be removed.)*
A: Place one Long Panel Left on the front of one Small Roof Assembly so it is flush to the side of (624) Rafter Corner Left and a slight overhang at the bottom of the Fascia Beam Assembly. Centre holes should line up with (634) Rafter. (F10.1 and F10.2)

B: Place one Long Panel Right on Small Roof Assembly so it overlaps the Long Panel Left and it is flush to the side of (623) Rafter Corner Right and a slight overhang at the bottom of the Fascia Beam Assembly. (F10.1, F10.2 and F10.3)

C: Attach both Left and Right Long Panels to Small Roof Assembly with four #8 x 1” Roofing Screws in locations shown in F10.1 and F10.2. Be sure not to overtighten screws.

D: Repeat Steps A - C for both Small Roof Assemblies.

**F10.1 Front View**

**DO NOT overtighten screws, could cause damage to roofing material**
Step 10: Attach Roof Panels - Small Roof Assembly
Part 2

E: Place one Short Panel Left on Small Roof Assembly so it overlaps the Long Panel Left and it is flush to the sides of (624) Rafter Corner Left and a slight overhang at the bottom of the Fascia Beam Assembly. There should be no overhang at the corners. (F10.4 and F10.5)

F: Place one Short Panel Right on Small Roof Assembly so it overlaps the Long Panel Right and it is flush to the side of (623) Rafter Corner Right and a slight overhang at the bottom of the Fascia Beam Assembly. There should be no overhanging at the corners. (F10.4 and F10.5)

G: Attach all panels to Small Roof Assembly with 40 #8 x 1" Roofing Screws in locations shown in F10.4. Do not place any screws along the bottom row. Be sure not to overtighten screws.

H: Repeat Steps E - G for both Small Roof Assemblies.

---

**F10.4**

- Long Panel Left
- Short Panel Left
- (624) Rafter Corner Left (hidden)
- No screws along bottom row
- Fascia Beam Assembly
- Panels overlap at the seams

**F10.5**

- Long Panel Right
- (623) Rafter Corner Right (hidden)
- #8 x 1" Roofing Screws (x 40 per assembly)
- No screws along bottom row
- Panels flush to corners, no overhang

---

**Roof Parts**

- 2 x Short Panel Left
- 2 x Short Panel Right

**Hardware**

- 80 x #8 x 1" Roofing Screw
Step 11: Attach Ridge Clips and Roof Edges - Small Roof

A: Place one Roof Edge Left 72.2 and one Roof Edge Right 72.2 on the bottom of each Small Roof Rafter Assembly so the ends are flush with the outside ends of the Fascia Beam Assembly and meet tight in the centre. Attach both Roof Edges with 17 #8 x 1” Roofing Screws per Small Roof Rafter assembly. (F11.1 and F11.2)

B: Place one Weather Seal on the inside of four Ridge Clip 102.5 then place one Ridge Clip 102.5 on each side of each Small Roof Rafter Assembly so they cover the panels and bottom edge is 2-1/4” up from the bottom of the Corner Rafters then attach with five #7 x 3/4” Wood Screws per Ridge Clip 102.5. (F11.1, F11.3 and F11.4)

Components:
2 x Roof Edge Left 72.2
2 x Roof Edge Right 72.2
4 x Ridge Clip 102.5
4 x Weather Seal

Hardware
34 x #8 x 1” Roofing Screw
20 x #7 x 3/4” Wood Screw
Step 12: Corner Roof Assemblies
Part 1

A: On the left side of one (675) Middle Rafter place one (624) Rafter Corner Left so the tops and edges are flush, notice on the (675) Middle Rafter the angled end at the bottom slopes down then attach with two #8 x 2-1/4" Wood Screws. Repeat this step by attaching one (623) Rafter Corner Right on the right side of one (675) Middle Rafter. (F12.1, F12.2 and F12.3)

B: Place one (676) Left End Fascia on the bottom of (634) Rafter Corner Left and (675) Middle Rafter so the tops and edges are flush then attach with two #8 x 2-1/2" Wood Screws. Repeat this step by attaching one (677) Right End Fascia to (623) Rafter Corner Right and (675) Middle Rafter. (F12.1, F12.2, F12.4 and F12.5)

C: Repeat Steps A and B to make a total of two Left Corner Roof Assemblies and two Right Corner Roof Assemblies.

---

Wood Parts
4 x (675) Middle Rafter
2 x (623) Rafter Corner Right
2 x (624) Rafter Corner Left
2 x (676) Left End Fascia
2 x (677) Right End Fascia

Hardware
8 x #8 x 2-1/4" Wood Screw
8 x #8 x 2-1/2" Wood Screw
Step 12: Corner Roof Assemblies
Part 2

D: For each Right Corner Roof Assembly and each Left Corner Roof Assembly, place one (629) Rafter Short RT, one (632) Rafter Centre RT, one (631) Rafter Centre LT and one (630) Rafter Short LT over the pilot holes in the (677) Right End Fascia and (676) Left End Fascia so they are flush to the top of the assembly and tight to both (623) Rafter Corner Right and (634) Rafter Corner Left, as shown in F12.6 and F12.7. Attach each End Fascia to each rafter with one #8 x 2-1/2" Wood Screw per rafter. (F12.6, F12.7, F12.8 and F12.9)

Wood Parts
2 x (629) Rafter Short RT
2 x (630) Rafter Short LT
2 x (631) Rafter Centre LT
2 x (632) Rafter Centre RT

Hardware
8 x #8 x 2-1/2" Wood Screw
**Step 12: Corner Roof Assemblies**

**Part 3**

**E:** For each Left Corner Roof Panel place one (681) Left Top Strap, one (683) Left Mid Strap and one (685) Left Bot Strap in the notches of each rafter so the ends do not overhang the outside edges of the outside boards then attach with four #8 x 1-1/2" Wood Screws per strap. (F12.10 and F12.12)

**F:** For each Right Corner Roof Panel place one (682) Right Top Strap, one (684) Right Mid Strap and one (686) Right Bot Strap in the notches of each rafter so the ends do not overhang the outside edges of the outside boards then attach with four #8 x 1-1/2" Wood Screws per strap. (F12.11 and F12.12)

---

</tr>
</tbody>
</table>

**Hardware**

| 48 x #8 x 1-1/2" Wood Screw |
Step 12: Corner Roof Assemblies
Part 4

**G:** Attach (629) Rafter Short RT and (632) Rafter Centre RT to (623) Rafter Corner Right and (631) Rafter Centre LT and (630) Rafter Short LT to (624) Rafter Corner Left with two #8 x 1-1/2" Wood Screw per rafter. (F12.13, F12.14 and F12.15)

**H:** Attach (684) Right Mid Strap and (686) Right Bot Strap to (629) Rafter Short RT and (632) Rafter Centre RT; and (683) Left Mid Strap and (685) Left Bot Strap to (630) Rafter Short LT and (631) Rafter Centre LT with 12 #8 x 1-1/2" Wood Screws. (F12.16 and F12.17)

**I:** Complete Steps G and H for all Corner Roof Assemblies.

---

**Hardware**

40 x #8 x 1-1/2" Wood Screw
Step 13: Attach Soffits - Corner Roof Assemblies

A: Turn over each Corner Roof Assembly then place one (690) Soffit End tight to the top of each (676) Left End Fascia and each (677) Right End Fascia. Each (690) Soffit End must be flush with the outside edge of (675) Middle Rafter. Attach (690) Soffit Ends to each (675) Middle Rafter, (623) Rafter Corner Right, (624) Rafter Corner Left, (629) Rafter Short RT, (630) Rafter Short LT, (632) Rafter Centre RT and (631) Rafter Centre LT with four #8 x 1" Pan Screws per soffit.  (F13.1, F13.2 and F13.3)

Wood Parts
4 x (690) Soffit End

Hardware
16 x #8 x 1" Pan Screw
Step 14: Attach Roof to Beam Brackets - Corner Roof Assemblies

A: Turn the assemblies back over then on the back of each Corner Roof Assembly, through the bolt hole at the bottom of the board, loosely attach one Roof to Beam Bracket to (629) Rafter Short RT, (632) Rafter Centre RT, (630) Rafter Short LT and (631) Rafter Centre LT with one 1/4 x 2" Hex Bolt (with two 1/4-5/16" large washers and one 1/4" lock nut) per bracket. (F14.1, F14.2, F14.3 and F14.4)

**Hardware**
- 8 x 1/4 x 2" Hex Bolt
- (1/4-5/16" large washer x 2, 1/4" lock nut)
- 8 x Roof to Beam Bracket
**Step 15: Attach Roof Panels - Corner Roof Assemblies**

**IMPORTANT!** Before starting this step, be sure to refer back to pages 34 & 35 regarding correct installation and handling of the roofing.

**A:** On the front of each Left Corner Roof Assembly place one Long Panel Left and one Short Panel Left so they are flush to the side of (624) Rafter Corner Left and the rib of Long Panel Left is centre on (675) Middle Rafter. There will be a slight overhang at the bottom of the (676) End Fascia Left. Short Panel Left should overlap Long Panel Left. There should be no overhang at the corners. (F15.1, F15.3 and F15.4)

**B:** On the front of each Right Corner Roof Assembly place one Long Panel Right and one Short Panel Right so they are flush to the sides of (623) Rafter Corner Right and the rib of Long Panel Right is centre on (675) Middle Rafter. There will be a slight overhang at the bottom of the (677) End Fascia Right. Short Panel Left should overlap Long Panel Left. There should be no overhang at the corners. (F15.2, F15.3 and F15.4)

**C:** Attach Long and Short Panels to each Corner Roof Assembly with 23 #8 x 1” Roofing Screws in locations shown in F15.3. Do not place any screws along the bottom row. Be sure not to overtighten screws.

---

**DO NOT overtighten screws, could cause damage to roofing material**

---

**Roof Parts**
- 2 x Long Panel Left
- 2 x Long Panel Right
- 2 x Short Panel Left
- 2 x Short Panel Right

**Hardware**
- 92 x #8 x 1” Roofing Screw
Step 16: Attach Roof Edges - Corner Roof Assemblies

A: On the bottom of each Left Corner Roof Assembly place one Roof Edge Left 72.2 so the holes in the Roof Edge Left line up with the holes in the panels then attach Roof Edges with nine #8 x 1" Roofing Screws per Left Corner Roof Assembly. (F16.1 and F16.3)

B: On the bottom of each Right Corner Roof Assembly place one Roof Edge Right 72.2 so the holes in the Roof Edge Right line up with the holes in the panels then attach Roof Edges with nine #8 x 1" Roofing Screws per Right Corner Roof Assembly. (F16.2 and F16.3)

Components:
2 x Roof Edge Left 72.2
2 x Roof Edge Right 72.2

Hardware
36 x #8 x 1" Roofing Screw
Step 17: Attach Ridge Clips - Corner Roof Assemblies

A: Place one Weather Seal on the inside of four Ridge Clip 102.5 then place one Ridge Clip 102.5 on each (623) Rafter Corner Right and each (624) Rafter Corner Left so they cover the panels and are flush to the top, then attach with five #7 x 3/4" Wood Screws per Ridge Clip 102.5. (F17.1, F17.2, F17.3 and F17.4)

B: Place one Weather Seal 75-1/2 on the inside of four Ridge Clip 73.5 then place one Ridge Clip 73.5 on each (675) Middle Rafter on both Left and Right Corner Roof Assemblies so they cover the panels and attach with four #7 x 3/4" Wood Screws per Ridge Clip 73.5. The top of each Ridge Clip 73.5 should be 1" from the tip of (675) Rafter Middle and bottom edge should be 2-1/4" up from the bottom edge of (675) Middle Rafter. (F17.1, F17.2, F17.3, F17.5 and F17.6)

Components:
4 x Ridge Clip 102.5
4 x Ridge Clip 73.5
4 x Weather Seal
4 x Weather Seal 75-1/2

Hardware
36 x #7 x 3/4" Wood Screw
**Step 18: Large Roof Assembly**

**Part 1**

**A:** On each side of one (680) Rafter Top place one (675) Middle Rafter so the tops and edges are flush then attach with two #8 x 2-1/2” Wood Screws per side. (F18.1 and F18.2)

**B:** Place one (678) Mid Fascia on the bottom of each (675) Middle Rafter so the sides and top are flush then attach with one #8 x 2-1/2” Wood Screw at each end. (F18.1, F18.3 and F18.4)

**C:** Repeat Steps A and B to make a second Large Roof Assembly.

---

**Wood Parts**
- 4 x (675) Middle Rafter
- 2 x (678) Mid Fascia
- 2 x (680) Rafter Top

**Hardware**
- 12 x #8 x 2-1/2” Wood Screw
D: Place five (633) Centre Rafters over the pilot holes in (678) Mid Fascia and (680) Rafter Top so they are flush to the top of each board, as shown in F18.5. Make sure (633) Centre Rafters are square to (678) Mid Fascia and (680) Rafter Top then attach (680) Rafter Top to rafters with two #8 x 2-1/4" Wood Screws per rafter and (678) Mid Fascia to rafters with one #8 x 2-1/2" Wood Screw per rafter. Repeat for second Large Roof Assembly. (F18.5, F18.6, F18.7 and F18.8)

Wood Parts
10 x (633) Centre Rafter

Hardware
20 x #8 x 2-1/4" Wood Screw
10 x #8 x 2-1/2" Wood Screw
E: Place three (679) Centre Straps in the notches of each (675) Middle Rafter and each (633) Centre Rafter so the ends are flush to the outside edges of (675) Middle Rafters. Make sure assembly is square then attach with 14 #8 x 1-1/2" Wood Screws per strap. Repeat for second Large Roof Assembly. (F18.9, F18.10 and F18.11)

F18.9

(675) Middle Rafter

(633) Centre Rafter

6 x (679) Centre Strap

Hardware
84 x #8 x 1-1/2" Wood Screw
**Step 18: Large Roof Assembly**

**Part 4**

**F:** Turn over each Large Roof Assembly then place one (689) Soffit tight to the top of (678) Mid Fascia. (689) Soffit must be flush with the outside edge of (675) Middle Rafter. Attach (689) Soffit to each (675) Middle Rafter and each (633) Centre Rafter with seven #8 x 1” Pan Screws. Install (689) Soffit on both Large Roof Assemblies. (F18.11 and F18.12)

**G:** On only one Large Roof Assembly, place one (645) Spacer at each end of (680) Rafter Top and two (695) Spacer Longs, evenly spaced, in between the (645) Spacers. To find the correct placement of each spacer insert one 1/4 x 4-1/4” Hex Bolt through (680) Rafter Top into each (645) Spacer and (695) Spacer Long. The bolts are for placement only, they are to be removed at the end of this step. Attach each spacer to (680) Roof Top with two #8 x 2-1/4” Wood Screws per spacer. Remove bolts, to be used in Step 24. (F18.11 and F18.12)

---

**Wood Parts**

- 2 x (689) Soffit
- 2 x (645) Spacer
- 2 x (695) Spacer Long

**Hardware**

- 14 x #8 x 1” Pan Screw
- 8 x #8 x 2-1/4” Wood Screw
- 4 x 1/4 x 4-1/4” Hex Bolt (for placement purposes only)
Step 19: Attach Roof to Beam Brackets
- Large Roof Assemblies

A: On the back of each Large Roof Assembly, through the bolt hole at the bottom of the board, loosely attach one Roof to Beam Bracket to the two outside (633) Centre Rafters with one 1/4 x 2” Hex Bolt (with two 1/4-5/16” large washers and one 1/4” lock nut) per bracket.  (F19.1 and F19.2)

**Hardware**

- 4 x 1/4 x 2” Hex Bolt
- (1/4-5/16” large washer x 2, 1/4” lock nut)
- 4 x Roof to Beam Bracket
Step 20: Attach Roof Panels - Large Roof Assemblies
Part 1

IMPORTANT!: Before starting this step, be sure to refer back to pages 34 & 35 regarding correct installation and handling of the roofing.

A: Turn over Large Roof Assemblies, make sure they are still square. Place four Middle Panels flush to the top and sides of (680) Rafter Top and (675) Middle Rafter. There will be an overhang at the bottom over (678) Mid Fascia. The panels overlap and screw holes line up as shown in F20.4. Attach each panel, where they overlap to each (679) Centre Strap and to each (675) Middle Rafter with 12 #8 x 1" Roofing Screws. Do not install screws along the bottom row. (F20.1, F20.2, F20.3 and F20.4)

Note: The holes at the top of each Middle Panel are 3/4" from the top. (F20.3)

DO NOT overtighten screws, could cause damage to roofing material

---

**Roof Parts**
- 8 x Middle Panel

**Hardware**
- 24 x #8 x 1" Roofing Screw
B: Attach panels to (675) Middle Rafter and each (679) Centre Strap in the remaining holes with 40 #8 x 1” Roofing Screws as shown in F20.5. Do not install screws along the bottom row.

C: Repeat Steps A and B for both Large Roof Assemblies.

DO NOT overtighten screws, could cause damage to roofing material

Hardware
80 x #8 x 1” Roofing Screw
Step 21: Attach Roof Edges - Large Roof Assemblies

A: On the bottom of each Large Roof Assembly place one Ridge Edge Middle so the holes line up with the holes in the Middle Panels then attach with 13 #8 x 1” Roofing Screws per Large Roof Assembly. (F21.1 and F21.2)

Components:
2 x Ridge Edge Middle

Hardware:
26 x #8 x 1” Roofing Screw
Step 22: Attach Ridge Clips - Large Roof Assemblies

A: Place one Weather Seal 75-1/2 on the inside of four Ridge Clip 73.5 then place one Ridge Clip 73.5 on each (675) Middle Rafter on both Large Roof Assemblies so they cover the panels and are flush to the tops. The bottom edge of each Ridge Clip 73.5 should be 2-1/4" up from the bottom edge of (675) Middle Rafter. Attach with four #7 x 3/4" Wood Screws per Ridge Clip 73.5. (F22.1, F22.2 and F22.3)

**Components:**

- 4 x Ridge Clip 73.5
- 4 x Weather Seal 75-1/2

**Hardware**

- 16 x #7 x 3/4" Wood Screw
Step 23: Attach Large Roof Assemblies to Frame
Part 1

A: With all four assemblers lift Large Roof Assembly with Spacers up so it is centred on the Long Beam Assembly so the middle (633) Centre Rafter fits in Centre Roof to Beam Bracket on Mid Post. Loosely attach Centre Roof to Beam Bracket to (633) Centre Rafter with one 1/4 x 2” Hex Bolt (with two 1/4-5/16” large washers and one 1/4” lock nut). (F23.1 and F23.2)

B: With an assembler holding the first Large Roof Assembly in place lift the second Large Roof Assembly on the opposite Long Beam Assembly. Middle (633) Centre Rafter fits in Centre Roof to Beam Bracket on Mid Post. Loosely attach Centre Roof to Beam Bracket to (633) Centre Rafter with one 1/4 x 2” Hex Bolt (with two 1/4-5/16” large washers and one 1/4” lock nut). (F23.2 and F23.3)

C: Attach Large Roof Assemblies with four 1/4 x 4-1/4” Hex Bolts (with two 1/4-5/16” large washers and one 1/4” lock nut) at the top. (F23.4)

Hardware

2 x 1/4 x 2” Hex Bolt  
(1/4-5/16” large washer x 2, 1/4” lock nut)

4 x 1/4 x 4-1/4” Hex Bolt  
(1/4-5/16” large washer x 2, 1/4” lock nut)
**Step 23: Attach Large Roof Assemblies to Frame**

**Part 2**

**D:** From the outside of the assembly have one person push one Large Roof Assembly in so (689) Soffit fits tight to the Long Beam Assembly and two people pushing up at the peak. One person fastens each Roof to Beam Bracket to beam and then rafters with three #12 x 1-1/2” Pan Screws. Install top screw into (633) Centre Rafter first then other two into the beam. Repeat this process for the second Large Roof Assembly. (F23.5 and F23.6)

**E:** Attach one Roof to Beam Bracket to the remaining (633) Centre Rafters on each Large Roof Assembly with one 1/4 x 2” Hex Bolt (with two 1/4-5/16” large washers and one 1/4” lock nut) and three #12 x 1-1/2” Pan Screws, per bracket. (F23.7 and F23.8)

**F:** Tighten all Bracket bolts in the Large Roof Assemblies.

---

**Hardware**

- 24 x #12 x 1-1/2” Pan Screw
- 4 x 1/4 x 2” Hex Bolt
- (1/4-5/16” large washer x 2, 1/4” lock nut)
- 4 x Roof to Beam Bracket
A: Slide one Peak Cap Detail in each end of Peak Cap Centre and attach with three 1/4 x 1/2" Pan Bolts (with 1/4" lock nut) per side. (F24.1 and F24.2)

Components:
- 2 x Peak Cap Detail
- 1 x Peak Cap Centre

Hardware:
- 6 x 1/4 x 1/2" Pan Bolt (1/4" lock nut)
B: Insert five Carriage Bolts with Contoured Washers through the top of Peak Cap Assembly. Place one Peak Post over each Carriage Bolt and secure with Spring Clips. The Spring Clip holds the assembly together. (F24.3, F24.4 and F24.5)

C: With one person on each end of the roof place Peak Cap Assembly on top of Large Roof Assemblies so Carriage bolts with Peak Post fit through gaps between the roof assemblies. (F24.6)

*The Peak Cap Assembly will not be secured until Step 31.*

**Hardware**
- 5 x Carriage Bolt
- 5 x Contoured Washer
- 5 x Peak Post
- 5 x Spring Clip
Step 25: Attach Corner Roof Assemblies to Frame
Part 1

A: Place Left Corner Roof Assemblies on the left side of each Large Roof Assembly and the Right Corner Roof Assemblies on the right sides. You will need to lift Peak Cap Assembly to get the top under it. Make sure fascia on each panel are flush then attach (675) Middle Rafters from each connecting assembly with four 1/4 x 3" Hex Bolts (with two 1/4-5/16" large washers and one 1/4" lock nut) per Corner Roof Assembly. (F25.1 and F25.2)

B: Push panels up from the outside and inside top to make sure each Soffit End on the Corner Roof Assemblies are tight to the Long Beam Assembly then fasten each Roof to Beam Bracket with three #12 x 1-1/2" Pan Screws per bracket. Install top screw into the rafter first then install the other two into the beam. Make sure Soffit End does not pull away from the Long Beam Assembly. Slight gaps are normal. Complete one Corner Roof Assembly before starting the next. (F25.1 and F25.3)

One assembler to support roof panel(s) at all times until secure

Hardware
16 x 1/4 x 3" Hex Bolt
(1/4-5/16" large washer x 2, 1/4" lock nut)
24 x #12 x 1-1/2" Pan Screw
C: On each connecting (675) Middle Rafter on the Large Roof Assembly attach one Beam to Rafter Bracket per rafter using four #12 x 1-1/2" Pan Screws per bracket. (F25.4, F25.5 and F25.6)

D: Tighten all Bracket bolts in the Corner Roof Assemblies.

Hardware
16 x #12 x 1-1/2" Pan Screw
4 x Beam to Rafter Bracket
Step 26: Attach Small Roof Assemblies to Frame

A: With all four assemblers lift one Small Roof Assembly up and over the Short Beam Assembly. You will need to lift the Peak Cap Assembly to get the top under it. Loosely attach each (623) Rafter Corner Right to each (624) Rafter Corner Left with three 1/4 x 2-3/4” Hex Bolts (with two 1/4-5/16” large washers and one 1/4” lock nut) per side. To align bolt holes helper in the centre may have to push up the centre of the panels and others make sure corners are aligned. Make sure all bolts are tight. Joining rafters must be flush at the top. (F26.1, F26.2 and F26.3)

B: Repeat Step A for second Small Roof Assembly.

**Hardware**

12 x 1/4 x 2-3/4” Hex Bolt
(1/4-5/16” large washer x 2, 1/4” lock nut)
A: From outside the assembly attach Small Roof Assemblies and Corner Roof Assemblies together at the Fascia Beam Assembly and Left and Right End Fascias with two #8 x 2-1/2" Wood Screws per corner. A helper may need to lift the centre of the roof to bring the corners tight together. (F27.1 and F27.2)

**Hardware**

8 x #8 x 2-1/2" Wood Screw
Step 28: Attach Corner Caps

A: At each corner place one Corner Cap tight to Fascia Assemblies and End Fascias, push up so the bottom is tight to the bottom of the fascia then attach with four #8 x 3/4" Sheet Metal Screws per Corner Cap. (F28.1 and F28.2)

Components:
4 x Corner Cap

Hardware:
16 x #8 x 3/4" Sheet Metal Screw
**Step 29: Attach Roof to Beam Brackets - Small Roof Assembly**

**A:** On each Small Roof Assembly, through the bolt hole at the bottom of the board, loosely attach one Roof to Beam Bracket to each rafter with one 1/4 x 2” Hex Bolt (with two 1/4-5/16” large washers and one 1/4” lock nut) per bracket. (F29.1 and F29.2)

**B:** Push panels up from the outside and inside top to make sure each (648) Soffit is tight to the Short Beam Assemblies then fasten each Roof to Beam Bracket with three #12 x 1-1/2” Pan Screws per bracket. Install top screw into the rafter first then install the other two into the beam. Slight gaps are normal. (F29.1 and F29.2)

**C:** Tighten all Roof to Beam Bracket bolts in both Small Roof Assemblies.

---

**Hardware**
- 10 x 1/4 x 2” Hex Bolt
  (1/4-5/16” large washer x 2, 1/4” lock nut)
- 10 x Roof to Beam Bracket
- 30 x #12 x 1-1/2” Pan Screw
Step 30: Attach Ridge Caps to Roof Panels

Part 1

A: At each corner, slide one Ridge Cap Long 81.5 over the Ridge Clips, from the bottom up with cut end leading. (F30.1 and F30.2)

B: Slide Ridge Cap Short 25.2 over the Ridge Clips leading with the insert end to push the Ridge Cap Long 81.5 to the top, lifting Peak Cap Assembly so Ridge Cap Long 81.5s fit under. Attach with two #8 x 3/4” Sheet Metal Screws per Ridge Cap set. (F30.1, F30.3, F30.4 and F30.5)

Note: To help Ridge Caps slide on easier use a lubricant such as liquid soap.

Components:
4 x Ridge Cap Long 81.5
4 x Ridge Cap Short 25.2

Hardware
8 x #8 x 3/4” Sheet Metal Screw
Step 30: Attach Ridge Caps to Roof Panels
Part 2

C: Remove the #8 x 1” Roofing Screws from each Ridge Edge Left, Ridge Edge Middle and Ridge Edge Right where each Corner Roof Assembly and each Large Roof Assembly connect. Two screws per location. (F30.6 and F30.7)

D: Place one Roof Edge Centre over each connecting seam, tight to Ridge Edges and attach with previously removed screws. (F30.6 and F30.8)

Components:
4 x Roof Edge Centre
E: At each Corner Roof Assembly and Large Roof Assembly connection, slide one Ridge Cap Middle over the Ridge Clips, from the bottom up to the top, with cut end leading. Slide under Peak Cap Assembly. Attach with two #8 x 3/4" Sheet Metal Screws per Ridge Cap Middle. (F30.9, F30.10 and F30.11)

**Components:**
- 4 x Ridge Cap Middle

**Hardware**
- 8 x #8 x 3/4" Sheet Metal Screw

**Note:** To help Ridge Caps slide on easier use a lubricant such as liquid soap.
Step 31: Secure Roof Peak Detail
Part 1

A: Insert one 1/4" Nut into each Peak Loop. Be careful nut is loose and will fall out until attached to Carriage Bolt. Only 2 are used in Part 1, the remaining 3 will be used in Part 2. (F31.1)

B: Insert two Roof Peak Brackets through each end Carriage Bolt, so they fit over the Rafter Corners, and attach Peak Loop to Carriage Bolts then twist to tighten. (F31.2, F31.3 and F31.4)

C: Attach each set of Roof Peak Brackets to the Rafter Corners of the connected Corner and Small Roof Assemblies in the slotted holes with four #10 x 1-1/4" Pan Screws per bracket. (F31.2, F31.3 and F31.4)

**Components:**
- 5 x Peak Loop
- 5 x 1/4" Nut
- 4 x Roof Peak Bracket

**Hardware**
- 16 x #10 x 1-1/4" Pan Screw
D: Place one Peak Bracket over each of the remaining Carriage Bolts then attach Peak Loop to Carriage Bolts and twist to tighten. (F31.5 and F31.6)

**Components:**
3 x Peak Bracket
Step 32: Attach Tie Wrap Brackets and Ties
Part 1

A: Attach one Tie Wrap Bracket tight to each end of five (646) Ties with one #10 x 1-1/4” Pan Screw per bracket using the inside holes. (F32.2 and F32.3)

B: With a helper place one (646) Tie with brackets against each (633) Centre Rafter on Large Roof Assemblies so (646) Tie is tight to the rafters and are level. Attach Tie Wrap Bracket to (633) Centre Rafters with two #10 x 1-1/4” Pan Screws on both sides of each bracket. (F32.1, F32.2 and F32.3)

C: Pre-drill with a 1/8” drill bit and secure Tie Wrap Brackets to (646) Ties and (633) Centre Rafters with one #10 x 2-1/2” Pan Screw per bracket. (F32.1, F32.2 and F32.3)

Wood Parts
5 x (646) Tie

Components:
10 x Tie Wrap Bracket

Hardware
50 x #10 x 1-1/4” Pan Screw
10 x #10 x 2-1/2” Pan Screw
Step 32: Attach Tie Wrap Brackets and Ties
Part 2

D: Attach one Double Tie Wrap Bracket RT and one Double Tie Wrap Bracket LT tight to each end of two (646) Ties with one #10 x 1-1/4” Pan Screw per bracket using the inside holes. Make sure flat side of each bracket is on the same side of the (646) Ties. (F32.5, F32.6 and F32.7)

E: With a helper place one (646) Tie against each (675) Middle Rafter on Corner Roof Assemblies so (646) Tie is tight to the rafters and are level. Flat side of each bracket must face out, bent side will be tight to (675) Middle Rafter on Large Roof Assemblies. Attach Double Tie Wrap Bracket to (675) Middle Rafters with four #10 x 1-1/4” Pan Screws. (F32.4, F32.5, F32.6 and F32.7)

F: Pre-drill with a 1/8” drill bit and secure Double Tie Wrap Brackets to (646) Ties and (675) Middle Rafters with one #10 x 2-1/2” Pan Screw per bracket. (F32.4, F32.5 and F32.6)

Wood Parts
2 x (646) Tie

Components:
2 x Double Tie Wrap Bracket RT
2 x Double Tie Wrap Bracket LT

Hardware
20 x #10 x 1-1/4” Pan Screw
4 x #10 x 2-1/2” Pan Screw
Step 33: Attach Twist Brackets

A: Measure 4” down from the inside of each Main Post, place bottom of either 45° Twist Bracket LT or 45° Twist Bracket RT at measured location then attach to Main Post and Corner Rafter (Left or Right) with four #12 x 1-1/2” Pan Screws per bracket. (F33.1 and F33.2)

Components:
2 x 45° Twist Bracket LT
2 x 45° Twist Bracket RT

Hardware
16 x #12 x 1-1/2” Pan Screw
Step 34: Metal Hooks and Plaque

**A:** Two 50 mm Hooks are included with this unit for attaching wiring. They can be placed anywhere along the Rafters as needed. Pre-drill with a 1/8” drill bit before installing. (F34.1 and F34.2)

**B:** Attach Gazebo ID Plaque to a prominent location on your gazebo with two #8 x 1” Pan Screws. This provides warnings concerning safety and important contact information. A tracking number is provided to allow you to get critical information or order replacement parts for this specific model. (F34.1 and F34.3)

---

**Note:** We have provided two 50 mm hooks for optional use to hold in place any wires if required. These hooks are not designed to hold any heavy products such as lights, flower pots, etc.

**Hardware**
- 2 x 50 mm Hooks
- 2 x #8 x 1” Pan Screw
- 1 x Gazebo ID Plaque
